

29 July 1952

OGC Has Reviewed

Larry:

Re the attached - literal compliance with Par. 4 of the 17 June 52 memo, without regard to the remainder of the memo would entail a detailed review of the Manual and CFR's, extracting all references to Personnel powers and examining them with a view to revision, if considered necessary in line with tenor of the memo in question. It is not believed that we should do this; but that rather after if it is done by O & MS ([REDACTED] who informally referred memo to us) it could then be referred to us with specific inquiries. Mrs. [REDACTED] was so advised.

Also talked to [REDACTED] re the above, and pointed out that with the current reorganizations anything we did do at this time might well be out of date tomorrow. Advised him of the proposed answer in the spirit of which he acquiesced. The memo will be handcarried to him while a copy thereof with the referenced memoranda will be returned to [REDACTED]
